2 IN 1, 3 IN 1 MULTIPURPOSE STROLLER ANEX® CROSS TEMPTED BY STYLE

For children from 0 to 3 years old

Anex Cross is an exclusive combination of refined minimalism and practical functionality peculiar for XXI century. The design of a stroller is stylish and up-to-date thanks to the ultra-modern eco leather; small but steady wheels which fully comply with the latest European design trends; an unique rucksack serves as an exclusive accessory, which completes the image of a modern mommy. Exceptional softness of the stroller motion is equal to its maneuvering; the elegant simplicity of the stroller appearance does not allow to forget about traditions of a legendary Swiss quality, proven for centuries. Anex Cross turns the most usual strolling with your baby into an incredible enjoyment!

SCOPE OF SUPPLY:

- compact aluminum frame
- inflatable front and rear wheels
- plastic cradle (100% cotton inside)
- seat unit
- shopping basket
- feet cover for the portable cradle
- feet cover for the seat unit
- bag-rucksack for mother
- rain cover
- mosquito net

in case of 3-in-1 option, scope of supply also includes the child safety seat with a feet cover and adapters for mounting on the frame.

COMFY STOP SECURE BRAKE SYSTEM

**Convenient,
single foot brake**

It is much easier to stop the stroller with the Comfy Stop system. Simply press the pedal and it will be impossible to move the stroller. Press the pedal one more time and the stroller will continue to move forward softly. Besides, with our brake lever you won't smudge or damage your shoes, because it has to be pressed on with your shoe sole, not with the toe. Comfy Stop brake system is very easy to control, and it guarantees the safety of your child.

X-LOCK ACCIDENTAL FRAME FOLDING PROTECTION SYSTEM

Safety and comfort

This system prevents the possibility of accidental frame folding of the stroller. Special locks block the frame automatically, so the chances of accidental folding come to naught.

BIG SHOPPING BAG

**Convenience
in the supermarket**

This stroller features a large shopping bag made of durable antiwear fabric. It is secured to the stroller's frame. This bag allows carrying products weighting up to 5 kg. For the convenience, it was made fully closable ensuring complete privacy of your belongings.

SAFE AND DURABLE FRAME

**Durability and
reliability**

Aluminum frame makes the stroller more light but at the same time very strong and easy to control. It can hold a 3 year old child and additional weight, which can be placed in a special bag. From now on, you don't have to refuse yourself to make additional purchases while strolling with your child.

SAFE WALK SECURITY SYSTEM

5-point safety belts

Safe Walk five-point security belts guarantee your child's safety by holding him or her firmly in a seat unit while strolling. The system is adjusted easily to the sizes of a child and the soft inserts protect your child's shoulders.

BUMPER

Removable drop-bumper

Bumper is an instrument which ensures that the little captain will remain on board of the ship even under the most severe circumstances. If necessary it can be easily removed or regulated. For example, when the little captain would want to set a foot on a shore of an unexplored land.

HEIGHT-ADJUSTABLE HANDLE

Suits parents of any height

Anex strollers are equipped with handles which can be regulated to everyone's individual parameters. They will be suitable for parents of any stature.

PORTABLE FRONT AND BACK WHEELS

The highest level of compactness

The process of wheels mounting and dismounting is simplified, so this makes the process of stroller folding and unfolding much more pleasant. To dismount a wheel, it is enough to press the latch. To mount the wheel back it is necessary to put it on an appropriate frame axle till the specific sound of the latch.

SOFT INFLATABLE WHEELS

Comfortable ride on uneven surface

Anex stroller is equipped with soft inflatable wheels. They provide the necessary stability and shock-absorption while riding on a rough surface.

FRONT SWIVEL (360°) WHEELS

Perfect maneuverability

The Anex stroller is well handled even in confined spaces thanks to the front swivel (360°) wheels. From now on, it is not necessary to lift the stroller to change the direction of the movement, an easy motion is enough to turn the stroller.

FRONT SWIVEL WHEELS FIXATION

Controlling your stroller effortlessly

To make the Anex stroller move straight forward, without constant alignment of the wheels, we've equipped the stroller with the system of front swivel wheels fixation. It is very easy to put the system into an effect and the result of its operation is hard to overestimate. To manage the stroller is very easy and convenient.

COMPACT ALUMINUM FRAME

Minimal volume when folded

The Anex stroller frame is folding together with the wheels and occupies minimum space. It can fit even in a small trunk. If necessary the wheels can be dismantled from the frame without any effort.

ONE CLICK MOVE SYSTEM

Mounting and dismounting the portable cradle with one sweep

The new One Click Move system allows to mount and dismount the cradle or seat unit on a stroller's frame with one move.

SEWING ACCESSORIES

Made of stainless steel

All Anex sewing accessories (zippers, buttons) are made from stainless steel. They can withstand any negative factors like high or low temperature, heightened humidity or repeated use. The components of a stroller will remain the same regardless of the conditions.

SUSPENSION WITH ADJUSTABLE SHOCK-ABSORBER

For comfortable movement on uneven surfaces

Parents, who choose Anex strollers, don't have to worry about rough surfaces or impassable roads. The newest shock-absorber system, which is installed on our strollers, is created to make the baby feel comfortable and safe in the conditions of different areas, even in those, which are not adjusted for driving.

PLASTIC CRADLE

Protection against adverse weather and accidental bumps

The cradle is made of whole molded plastic, which protects a child from the adverse weather conditions and accidental bumps.

ADJUSTABLE BACKREST AND FOOTREST OF THE SEAT UNIT

Your child will be comfortable

The seat unit backrest can be adjusted to 3 different positions, which are the most comfortable for your child while sleeping or beholding. The footrest can be regulated in 3 positions. The ability to regulate the backrest and footrest allows you to control comfort of your child while strolling.

TWO-WAY SEAT UNIT FIXATION

Mounting the seat unit in the direction of movement or against the direction of movement

Thanks to universal adapters with ONE CLICK MOVE system the seat unit can be mounted in two positions – in the direction of a stroller movement or against it.

ADJUSTABLE HEADREST OF A CRADLE

Comfort for your child

You can adjust the headrest of a cradle any time with the help of regulator at the bottom of a cradle. Thanks to outside regulator you don't have to bother a child and an option of headrest adjustment allows you to maintain comfort and cosiness in the cradle.

HOOD CANOPY

Additional protection against wind and sunlight

The seat units and portable cradles of Anex® strollers are equipped with hoods featuring canopies creating additional shade and protecting your child from harmful UV rays and wind.

THE HANDLE FOR CARRYING THE CRADLE

For convenient transportation of the portable cradle

It is much easier to carry a cradle if it has a special handle. Convenient eco leather handle, hidden in a cradle's hood, makes it easy to carry a cradle with one hand.

VENTILATION SYSTEM

For fresh air

The baby will always get enough of fresh air while being inside the Anex stroller cradle or seat unit. Special ventilation window inside the cradle will provide a child with fresh air during each walk.

MOSQUITO NET

For active recreation outdoors

Each Anex stroller is equipped with mosquito net, so your child will be protected from insects while strolling or while taking a rest in the open air.

RAIN COVER

Weather protection

Anex strollers are equipped with rain cover to protect a child from the water which can get inside the cradle while raining.

UV50+ FABRIC

UV Protection

Anex fabric with UV+50 technology absorbs more than 50% of harmful ultraviolet rays and doesn't let them to penetrate inside the stroller thus it protects the child.

WATERPROOF FABRIC

Protection against rainwater and other liquids

Anex strollers upholstery and hood are made of fabric with a special water-repellent impregnation called Waterproof. Raindrops slide down the fabric without penetrating into it. That is why the stroller is very easy to clean.

EASY TO CLEAN

Ease of maintenance

It is very easy to clean the Anex stroller because its upholstery and hood are made from the fabrics with waterproof and dirt-repelling qualities. The fabrics do not fade on the sun and preserve original color.

ECO LEATHER HANDLES

Practical and nice on the touch material

High quality upholstery of stroller's handles don't cause allergic reactions, don't overheat in the sun and don't become hard in freezing temperatures. It is smooth to the touch and easy to clean.

PORTABLE CRADLE IS MADE OF 100% COTTON **ECOTEX**®

Eco-friendly and hypoallergenic fabrics

Portable cradle is sewed with 100% cotton inside. A natural fabric with EcoTex technology creates an ideal microclimate for a child, don't cause allergies and preserves natural dry heat inside the cradle. Only being in a healthy environment the baby will feel safe and you won't have to worry about his or her health.

FABRICS TREATED WITH SILVER IONS

Eco-friendly and hypoallergenic fabrics

The silver ions fabrics-protection technology is the innovative approach for manufacturing safe goods for kids. The fabric treated with this technology has high antiseptic and antibacterial properties. In a stroller, with ion treated fabrics, your baby won't be threatened with inimical bacteria and germs. The baby will sleep calm and sweet in this stroller.

MATTRESS FILLED WITH COCONUT COIR

Orthopaedic mattress

High quality orthopedic mattress is one of the most important components of a stroller, which is necessary for child's healthy growth. That is why Anex stroller is equipped with mattress which has an unique orthopedic coconut coir filling. It facilitates the proper development and bone shaping of a child. This kind of mattresses is highly recommended by leading pediatricians.

CRADLE'S BOTTOM VENTILATION

Unobstructed access of air

Special perforation at the bottom of the cradle provides unobstructed air access. Thanks to innovative ventilation system your baby will feel comfortable even during the hottest summer day!

THERMAL BAG

Convenience during long strolls

The materials of Anex thermal bag determine its main advantages such as durability and ecological compatibility. Furthermore, the harmonious combination of jacquard and eco leather makes the stroller more attractive and stylish.

BAG-WALLET

Exquisite accessory

The main advantage of eco leather bag is its wearing capacity and modernity. This bag-wallet will serve you more than a year or two and it will look the same as you bought it. Every woman, who has eco leather bag will look elegant and stylish with it, because eco leather bags are in the latest fashion.

CHILD SAFETY SEAT

For those who often uses cars

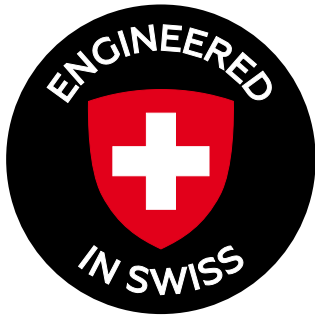

For those parents, who like to travel with their child by car, Anex produced reliable and branded child safety seat, which supplements the stroller. Anex is helping you to open the world with your child from an early age.

MULTIFUNCTIONAL BACK-RUCKSACK FOR MOTHER

Stylish and convenient accessory

Anex do not cease to amaze with fashionable and amazing accessories. In this model of a stroller, a versatile rucksack serves as a bag for mother, which has additional pockets inside. An important feature of this rucksack is that you can wear it as usual, on one shoulder and it can be transformed to a stylish bag.

SWISS DESIGN

Exclusive materials and components

All lines of Anex strollers are developed by Swiss design experts. We rely on the best of the best to do this important part of the work. Our clients receive exclusive product, for manufacturing of which the high quality materials and accessories were used.

ISO 9001 CERTIFICATION

Safety and comfort

All the accessories and materials of Anex strollers upholstery comply with international standards of products quality and safety ISO 9001.

EAC CERTIFICATION

Safety and quality

Anex strollers have certification of compliance with requirements of EAC Customs Union technical regulations.

EN 1888:2012 CERTIFICATION

Security, stability and durability

Anex® kids strollers were tested according with the EN 1888:2012 European standards which determine safety, stability and durability requirements
